

## 8.2 Perimeters of Composite Figures

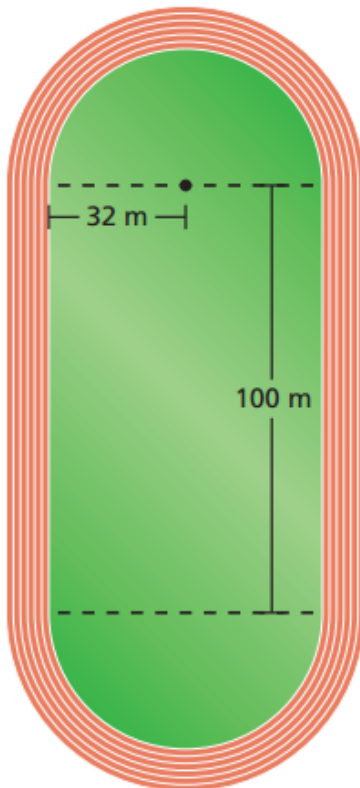

**composite figure** - a figure made up of 2 or more two-dimensional figures

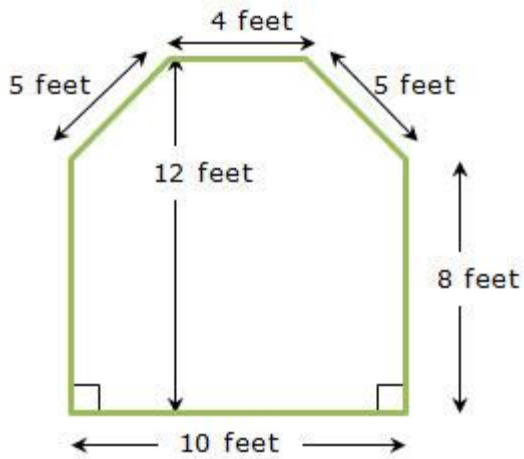

**Ex:** Find the perimeter of the composite figure.

**Ex:** Find the perimeter of the running track.

Ex: A farmer wants to fence a section of land. Fencing costs \$25 per yard. How much will it cost to fence the pasture?

Ex: You walk around the perimeter of the baseball field at a rate of 5 feet per second. How long does it take you?
