## Algebra Review Handout Key

1. $-3<x<0$
2. $\mathrm{x}<-6$ or $\mathrm{x}>3$

3. $5<x<7$

4. $x \geq 7$
5. $x \leq 5$ or $x>7$
6. $\mathrm{x}<7$
7. $-10<x \leq-5$
8. $-8<x<-7$
9. $2 \leq \mathrm{x}<10$

10. $x \geq-5$
11. $-11<\mathrm{x}<-1$

12. $\mathrm{x}>2$
13. All Real Numbers
14. $0<x<6$

15. No Solutions
16. All Real Numbers

## BACK OF HANDOUT

1. Let $\mathrm{t}=$ number Terry has

Let $50-\mathrm{t}=$ number Jane has

$$
\begin{aligned}
& \text { Jane's }>\frac{2}{3} \text { Terry's } \\
& 50-\mathrm{t}>\frac{2}{3} \mathrm{t} \\
& \mathrm{t}<30 \text { so... }
\end{aligned}
$$

Terry has at most 29 DVD's, and Jane has at least 21 DVD's.
2. Let $\mathrm{d}=$ number of dimes

Let $20-\mathrm{d}=$ number of nickels
\$ in dimes + \$ in nickels > Total \$

$$
\begin{gathered}
.10 \mathrm{~d}+.05(20-\mathrm{d})>1.40 \\
\mathrm{~d}>8 \text { so } \ldots
\end{gathered}
$$

There are at least 9 dimes in the purse.
3. Let $\mathrm{d}=$ Diane's age now

Let $\mathrm{d}+3=$ Peter's age now
Peter 20 yrs ago $\geq$ twice Diane's age 20 years ago
$(\mathrm{d}+3)-20 \geq 2(\mathrm{~d}-20)$

$$
\mathrm{x} \leq 23 \text { so... }
$$

Diane is 23 and Peter is 26 .
4. Let $\mathrm{t}=$ time for each

Dist. Faster Train + Dist. Slower Train $\geq 312$

$$
\begin{aligned}
& \quad \begin{array}{l}
\mathrm{r} \cdot \mathrm{t} \quad+ \\
82 \mathrm{t} \quad \mathrm{r} \cdot \mathrm{t} \\
\mathrm{t} \geq 2 \text { so... } \\
\mathrm{S}^{\mathrm{PM}} \text { at the earliest. }
\end{array}
\end{aligned}
$$

5. Let $x=$ the first number

Let $\mathrm{x}+1=$ the second number
$6 \mathrm{x}<5(\mathrm{x}+1)$
$\mathrm{x}<5$ so...
The integers are 4 and 5 .
Challenge:

$$
\text { Let } \mathrm{c}=\text { Chris's age }
$$

Let $\mathrm{c}+3=$ Ben's age
Let c $+6=$ Aaron's age
$12<\mathrm{c}+(\mathrm{c}+3)+(\mathrm{c}+6)<21$
$12<3 \mathrm{c}+9<21$
$1<\mathrm{c}<4$ so...
Chris could be either 2 or 3 years old.
Check each by doing the product of their ages:
$2 \cdot 5 \cdot 8=80$ Product should be 80 !
$3 \cdot 6 \cdot 9=162$
Therefore Chris is 2 , Ben is 5 , and Aaron is 8 .
